Global Marketing Manager Feed Additives for Pigs (m/f)

Our client produces a wide range of nutritional feed additives. Their state-of-the-art and nature-based products are sold in Europe, Americas and Asia. The position offers a great career opportunity for the pig nutrition specialist.

Responsibilities:

- Expansion of the pig nutrition portfolio
- Improve technical and marketing knowledge
- Develop new and innovative products
- Leading and coordinating the global pig nutrition team
- Cooperate with research institutions and establish a scientific network
- Support the R&D team and registration department
- Identify and develop business potentials
- Provide publications to the scientific media
- Interacting with in-house cross-functional teams on a global basis
- Budget planning and monitoring of cost
- Competitive salary including comprehensive benefits

Qualifications:

- MSc or PhD in animal nutrition or veterinary science
- 5 years working experience in pig nutrition
- In depth understanding of feed additives
- Strong scientific background in nutrition and physiology of monogastric animals
- Experience in least-cost formulation of pig feed
- High level of self-motivation
- Strong intercultural and social skills
- Influential, persuasive and goal orientation
- Communication in multi-cultural environment
- Willing to relocate within Europe and to travel frequently
- Excellent command of English
